2027 BACKCOUNTRY X-RS

// FEATURE HIGHLIGHTS

1 Rotax 850 E-TEC Turbo R engine with Water Injection System

Rotax 850 E-TEC Turbo R engine with Water Injection System sets new standards in lightweight 2-stroke performance with the most horsepower that's delivered consistently.

2 Trail performance seat

Engineered for trail riding, the new seat features an upright design for better posture, reduced forward tilt for enhanced stability, and optimized firmness for solid support. A slightly wider profile adds comfort without sacrificing performance.

3 RAS™ RX front suspension with wider 43 in. ski stance

The Backcountry™ X-RS® equipped with the 43-inch-wide ski stance combined with RAS™ RX front suspension improves its on-trail cornering stability while maintaining traction and flotation in deeper snow.

BACKCOUNTRY X-RS 146 850 E-TEC TURBO R SHOWN

4 cMotion™ X rear suspension with rail reinforcement

Completely new lighter design is better balanced for performance on and off trail. Perfectly balanced weight transfer for an increased fun factor, more travel for more comfort and rail reinforcement for added strength.

5 Pilot™ RX skis for 43 in. ski stance

The aggressive design of the Pilot™ RX ski offers better grip, enhanced cornering and unparalleled control in all snow conditions.

6 10.25 in. Touchscreen Display with BRP Connect, featuring Built-In GPS with Group Ride

View the live location of members of your group while independently seeing other riders around, without the need for a phone connection or cellular network access. Benefit from a map layer and trails,* track your current ride and see previous. For more, use your phone with the free BRP GO! app.
